

Eddie Chumney is the founder of Hebraic Heritage Ministries International, and is a leading national and international speaker on the Hebraic Roots of Christianity. He is recognised as a brilliant scholar in Hebraic studies, and he inspires and motivates believers to more intense and devoted study of the Word of YHWH like few can do.

Eddie was raised in traditional Sunday Protestant churches, and at the age of 16 YHWH put a desire in his heart to study Bible prophecy and the end of days. In 1989 he began to study the Biblical Festivals which was the start of his journey into studying the Hebraic roots of Christianity. In 1994 Eddie learned how it is the redemptive plan of the God of Israel to gather and unite the twelve tribes of Israel in the end of days.

From his studies YHWH put it upon Eddie's heart to start Hebraic Heritage Ministries International in 1995. He teaches believers in Yeshua the Messiah how to express their faith in Him by following His Torah.

Eddie has written several books, including *The Seven Festivals of the Messiah*, *Who is the Bride of Christ?* and *Restoring the Two Houses of Israel*, and he teaches the Hebraic roots of Christianity each week through Paltalk.

Eddie gives a prophetic news update each week called 'The Five Minute Update' which can easily be accessed through <http://www.watchmanofzion.com>. In order to have a better grasp of historic and current events concerning the Land and people of Israel we **highly recommend** this site which also has archives of all Eddie's updates through these troubled times.

The books of **Galatians** and **Romans** are two of Paul's letters through which Christianity claims that Paul is saying that believers in Yeshua should not follow the Torah. In these two DVD sets Eddie explains in detail the first-century context of the issues that Paul was addressing in his letters, which clarifies that these two books specifically discuss not '*if*' but '*how*' we should follow the Torah. A **must** for believers seeking to let go of a Greek mindset and grasp a Hebraic understanding of the Word!
